

Mojere Augusta — The Polytech Method

BIO

Mojere Augusta is the creator of POLYTECH X — The Polytech Method (PMX), an operating manual for intelligent action: prompt, model, execute. No coding background required — verification over blind generation.

The method is laid out in the book THE POLYTECH: The Secret to Genius Prompting (Upscaled Edition — 8 parts, 38 chapters, 5 appendices, with a certification path in Appendix D) and mapped to the frontier, aligned with the Stanford CS329A curriculum.

Under the Crown X universe, the method runs across five nodes — Create Architecture, Play Signals, Listen Network, Wear Protocol and Learn Stack — powering XENA music, the VITALXI fashion ecosystem, PMT.VTO real-fit try-on, the XYZ Innovatives studio and the Crown X residence concepts.

FACTS AT A GLANCE

Brand: POLYTECH X — The Polytech Method (PMX)

Tagline: Prompt / Model / Exec

Book: THE POLYTECH: The Secret to Genius Prompting — Upscaled Edition

Worlds: Systems Core a-01 · XENA b-02 · VITALXI g-03

Services & Press Contact

SERVICES

AI Workflow Audit & Architecture

\$1k - \$3k

Review manual business processes and design a custom Polytech Chain (Scan / Ignite / Play) targeting automation of 40%–60% of repetitive team tasks.

Custom AI Agent / LLM System Build

\$3k - \$10k+

Production-ready structured prompt pipelines, custom agents and automated workflows — code generation, multimodal pipelines and tool use, with verification built in.

Corporate Prompt Engineering Workshops

\$2k - \$5k / day

Training for engineering and creative teams on verification-first prompting, tool orchestration and structural prompting frameworks from The Polytech Method.
